

She was a little bit never known
From a town, nothing set apart of its own
From a mother ghost, from another home
But a heart so strong it nearly turned to stone

Could you stay awhile, just while we dream
Sung to the air right in front of me

Capturing, capturing what a waterfall
Then I knew it all, I knew it all

Mercy you, you helped me shine
Although the last, it was the first time

Mercy you, goodbye divine
Although the last, it was the very first time

PS Goodnight

She was a little bit never known
In the ending, forever sending, what was shown

Forever sending
Forever ascending

See you, in another time
I'll see you in another time

PS Goodnight
